Forgotten Books, United States, 2015. Paperback. Book Condition: New. 229 x 152 mm. Language: English Brand New Book ***** Print on Demand *****.Excerpt from Elements of Woodwork; Elements of Construction; Constructive Carpentry; Inside Finishing; Handbook for Teachers This series consists of six volumes, five of which are intended as textbooks for pupils in manual-training, industrial, trade, technical, or normal schools. The last book of the series, the Handbook in Woodwork and Carpentry, is for the use of teachers and of normal students who expect to teach the subjects treated in the other volumes. Of the pupils volumes, the first two, Elements of Woodwork and Elements of Construction (or the combination volume, Elements of Woodwork and Construction), are adapted to the needs of students in manual-training schools, or in any institution in which elementary woodwork is taught, whether as purely educational handwork, or as preparatory to a high, or trade, school course in carpentry or vocational training. The volumes Constructive Carpentry and Inside Finishing are planned with special reference to the students of technical, industrial, or trade schools, who have passed through the work of the first two volumes, or their equivalent. The subjects treated are those which will be of greatest value to both the prospective and the finished workman. For the many teachers who are obliged to follow a required course, but who are allowed to introduce supplementary or optional models under certain conditions, and for others who have more liberty and are able to make such changes as they see fit, this series will be found perfectly adaptable, regardless of the grades taught. To accomplish this, the material has been arranged by topics, which may be used by the teacher irrespective of the sequence, as each topic has to the greatest extent possible been treated independently.
