paperback. Book Condition: New. Ship out in 2 business day, And Fast shipping, Free Tracking number will be provided after the shipment. Pages Number: 347 Publisher: China Electric Power Press Pub. Date :2008-09. Thermal Engineering theoretical basis for the general higher education Eleventh Five-Year national planning materials (higher vocational education). The book is divided into two. namely. engineering thermodynamics and heat transfer. Engineering Thermodynamics main contents include: thermodynamics first. the second law of thermodynamic properties of gas and heat process. water vapor. wet air. power cycle. thermal cycle; heat transfer include the following: heat conduction. convection. thermal radiation. quality exchange. Thermal theory-based with the characteristics of vocational education. vocational tightly around the application-oriented training objectives written. In the preparation process-oriented theory with practice. emphasizing the application and follow the laws of cognition. selection of content. Materials to fully reflect the applied. practical. comprehensive. advanced principle. Thermal theory-based as vocational heating ventilation and air conditioning engineering materials. correspondence and the Self can be used as resource materials. but also relevant professional engineering and technical personnel as a reference book. Contents: Introduction First Edition Preface Introduction Section I the main symbol of thermal energy and its use of Section III of development theory thermal theory-based research object and the main content first Engineering Thermodynamics Introduction Chapter nature of the first gas Section II thermal systems heat the working fluid state and its basic state parameters of the third quarter and the heat balance equation of state of ideal gas equation of state IV Section V Section VI The specific heat of ideal gas mixture Chapter Summary Exercises first law of thermodynamics Section II systems thermodynamic processes III system can store energy exchange with the outside world closed system energy equation IV V VI open system steady flow energy equation and energy equation Summary...
