Cochrane Metering Heater does more, however, than merely give you a gage or record of the operation of the plant. It helps improve the efficiency of the plant, by utilizing exhaust steam to heat the boiler feed water, about 1 of fuel being saved for each 11 F. that the boiler feed water is raised in temperature Subtract the temperature at which water is now going to your boilers from the 212 F., or higher, according to the back pressure to be carried on the heater, and divide by 11, and you will have the saving in per cent. Cochrane Independent Meters are used in connection with open or closed heaters already installed, and also for metering the condensate from condensers serving turbines and engines. The Independent Meter is the most reliable, and about the only, gage that can be had of steam turbine...
