WOMEN AND THE COLONIAL GAZE

NYU Press. Paperback. Book Condition: New. Paperback. 288 pages. Dimensions: 8.5in. x 5.8in. x 0.8in. Considered as a whole, this collection offers a basis for generalisations and specialised inquiry that will support both teaching and further research on the role of women in world history. Itinerario The book deserves credit for stimulating such questions, which have broad appeal among scholars of colonialism, including those who do not work on gender. Its broad coverage and accessible language give it access to a wider audience than many academic anthologies, thereby advancing the interests of all those who value the study of colonial history. Journal of Colonialism and Colonial History Women and the Colonial Gaze is the first collection to present a broad chronological and geographical examination of the ways in which images and stereotypes of women have been used to define relationships between colonial powers and subject peoples. In essays ranging from ancient Rome to twentieth-century Asia and Africa, the contributions suggest that the use of gender as a tool in the imperialist context is much older and more comprehensive than previously suggested. Contributors look particularly at the ways in which colonizers constructed a national identity by creating a contrast with the colonial other, in contexts ranging from Christian views of Islam women in medieval Spain to French beliefs about Native American women. They also examine the ways in which images of gender as constructed by colonial powers impacted the lives of native women from colonial-era India to Korea to Swaziland. Comparative in its approach, the volume will appeal to students and historians of womens studies, colonialism, and the development of national identity. This item ships from multiple locations.
